Vancouver, BC, V6M 3Y7, Canada

Detailed Engineering - At the start of the project our engineering team performs multiple discipline design activities and produce documents in support of procurement, construction, commissioning and startup. The major deliverables from the phase are Approved for Construction (AFC) and Procurement Documents.

Architectural - Starting from passive fire and thermal insulation our architectural tradesmen install wall finishes, doors, windows, finished flooring, ceilings and fitted & moveable furniture. For urgent requirements a small stock of items from well-renowned manufacturers is maintained, however for larger projects forward delivery of materials is planned arranged in line with the project execution schedule.

HVACR - Heating Ventilation Air Conditioning and Refrigeration solutions for new construction, expansion or refurbishment projects are so unique as no installation is same as another. Our experience and expertise in this field provide the cost effective and timely solution for each project. Refrigerant conversions also carried out, incorporating full technical scope for fleet conversion programs and keeping with global compliance.

Piping - Our piping and plumbing teams are capable of supplying, installing, testing and commissioning multiple piping systems of board. The materials we can handle include carbon steel, stainless steel, copper, cu-ni, various plastics including UPVC, CPVC, PP, PB, GRP etc. We have specialists in jointing techniques including welded, screwed, brazed, soldered, crimped and glued types.

Electrical & Instrumentation - From the simple small power and lighting circuitry to the complex controls and data management systems are managed by our experienced team on board. On our projects we normally supply and install normal and emergency power, fire alarm system, communication & public address, navigation, data and networking including fiber optics, entertainment systems, radio antennae and helideck lighting, battery back-up and helicopter landing systems.

Over the course of several years of operation, *Kornerstone* has established a strong internationally reputed companies as their clients who have been a consistent support in the growth of *Kornerstone* to its present standing.
